Bar Options

There are a variety of ways you can arrange to use our beverage service. When planning a private event, you may offer your guests a cash bar, open bar or a more limited option to help control cost, or one of our open bar packages

CASH BAR

At no charge to your function, we will make a "cash" bar available to your guests. The guests will be expected to purchase drinks and tip on their own.

TAB

You may choose to "run a tab" and pay for drinks by consumption. You can control cost by limiting your tab ahead of time, for example, by only offering beer or wine at your event or limiting a dollar amount.

OPEN BAR

If this option is the chosen, the host will be paying for the alcohol consumed based on the number of all guests of legal age (21 yrs.).
